

- 粒, sounds like 'lup'. It's combined with 米 and 立 together.
- 粒 is a term used to express an amount of things that are tiny, such as rice (which is why it has 米 on the side).
- We can use it in expressions with the words we learn,
  - 一粒豆, a pea.
  - 一粒米, a grain of rice.

選出可以配合「粒」來做量詞的詞語，填在橫線上。
